Dear Resident of Forest Hills Borough:

Forest Hills Borough has contracted with Victor Paving & Construction to provide roadway resurfacing services for this year. As such the Borough has included your roadway in this year's program. **Roadway construction work, weather permitting, will take place from 7:00 AM to 6:00 PM beginning Wednesday 10/16.** Please have all vehicles parked on the streets removed during these hours (**no work will take place on Sunday**). Vehicles that remain on the street during these hours may be towed at the owners' expense.

The paving process will include milling and cleaning of the roadway surface, the spraying of a tack coat material onto the road surface, then application of the asphalt. The tack coat material can splash onto your vehicle, and even track onto your driveway if you drive on or through the substance. All efforts will be made to minimize this situation while at the same time maintaining traffic flow during the project. Please allow extra time when using your road during construction. Caution should be while driving during working hours.

Thank you for your patience and cooperation during this project.

Sincerely,

Victor Paving & Construction, Inc.
Forest Hills Borough
