

THE GARDEN CLUB OF FOREST HILLS

was organized as the East Edgewood Acres Garden Unit in 1923.

- + The club was instrumental in buying land and hiring architect Ezra Stiles to design the main Borough Park in the 1930's.
- + The club was federated in the Garden Club Federation of Pennsylvania in 1933.
- + The club took its present name in 1938.
- + Club members planted Victory Gardens during World War II and organized drives to plant trees honoring soldiers along the region's Blue Star Memorial Highways.
- + Club members turned a neglected hillside in the Borough Park into a garden for all seasons in 1993. They continue in this endeavor to make the Hillside Garden a welcoming spot for all who visit. In recent years, a Butterfly and Native Plant Garden were added nearby.
- + Members have planted thousands of daffodils, daylilies, ornamental grasses and ever-blooming roses along borough roadways plus flowers at the local library, senior center and swimming pool.
- + The club participates in civic activities, including Community Day and the Arbor Day Celebration, and assist with landscape clean-up programs in the borough.
- + The club uses money raised through sales of plants and poinsettias and its annual auction to sponsor educational programs. It also donates at least \$2,000 each year for scholarships and to organizations with similar missions including W. PA Conservancy, Pittsburgh Botanic Garden, Phipps Conservatory & Botanical Gardens, National Aviary and Penny Pines.
